

CredAble Agri Procurement Solution

Extend DPO on agri procurement without slowing vendor payments

TradeCo-led structure for procurement from agri vendors (including mandi procurement), quick vendor payments and buyer credit extension

Large buyers with agri produce as inputs often need to pay such vendors quickly while managing longer **internal cash cycles** and **mandi-linked** procurement complexity.

CredAble supports agri procurement through a **TradeCo-led** structure where vendors are paid promptly and buyers access **extended** credit terms. **CredAble** also holds active **mandi licences** across states including **Rajasthan** and **Haryana**, enabling direct procurement in a working capital efficient manner.

What the structure enables

TradeCo-led agri procurement

Acts as master supplier for agri commodity procurement.

Prompt vendor payments

Mandi vendors and third-party suppliers are paid quickly.

Extended payable days

Buyers can access longer payment periods, such as 90 to 120 days.

APMC procurement support

Active APMC licences support direct mandi procurement.

Off-balance sheet financing

The structure is designed to support off-balance sheet treatment.

Why this matters for agri buyers

Extended DPO

More time to pay while vendors are paid promptly.

Improved liquidity

Unlock working capital across agri procurement flows.

Lower operational complexity

TradeCo handles APMC and MSME compliances.

Better working capital metrics

Improved cash flow and procurement efficiency.

Why CredAble?

\$21B+

working capital enabled

175+

corporates supported globally

100+
